WINDOW FILM SERIES

GLASS INSULATION WITH SOLAR PROTECTION
Privacy | UV & Fade control | Heat & Glare Control

The World's Most Advanced Window Films for Home and Office

Energy Control Window films from Glazing Films Ltd allow you to obtain a dual climate for your home or office with a variety of window films available including:

Thermal Insulation Films that transforms a single pane of glass to that of a **double pane** window and of a double pane window close to that of a triple pane, all without the expense, inconvenience and impact on the environment as a result of window frames and glass replacement, with faster pay-back for your investment.

These insulation films also control: Glare; block 99% of UV, protect furnishings from fading; **Retain Winter Heat** while still allowing **Winter Warmth** to enter your home or office; and control varying rates Summer Heat Gain in the hot summer months, which can **dramatically reduce yearly heating and cooling costs. Up to lifetime warranty**

Solar Control Window Films help reduce Heat, control Glare, provide 99% UV block, reduce energy costs, improve Summer Cooling, add Privacy One-Way with optional external looks while enhancing your home or office. With Solar Control Films there are solutions for a variety of home and office environments.

Safety and Security Films. Where glass safety upgrades are required, there is a selection of Safety and Security films to conform to the New Zealand building code F2 - Hazardous Building Materials and comply with the performance standard F2/AS1(NZS 4223.3:2016) for building upgrades that require code of compliance. Security Films are available for business security and upgrades that will appeal to building owners, property managers, banks and jewelry shops for occupant and property safety and security.

Frosting & Decorative Films Decorative films are cost effective and creatively flexible they function as a Feature or as a Privacy Barrier and can enhance the look and feel of your home or business.
